A Specialized Approach to Collections

Capital Accounts has taken a results driven and innovative approach to collections through the development of a propriety collection platform with leading edge technology and business processes. Our platform is the foundation for high levels of recovery and attentive customer service. We consistently recover a higher percentage of our client's bad debt because we take the time to develop a collection program specific to our clients needs.

Advantages of using Capital Accounts

- State-of-the-art technology utilizing sophisticated phone and on-line systems.
- Credit Reporting on all accounts not paid in full within 30 days.
- Zero financial risk. You pay nothing until we collect for you.
- Statistical and informational reporting at no additional cost.
- We have experienced and highly motivated collectors. Schedules are maintained to take advantage of the full day and weekends as appropriate in order to maximize contacts.
- Advanced Skip Tracing services using the most current technology allows us to internally maintain internal databases for all residences and businesses throughout the United States.

How do I get started?

Be not complacent. Time is the most critical factor in debt recovery. The office can fax, mail, or email this information to us or submit online at www.capital-accounts.com. Once we receive the accounts, a confirmation report will be generated to your office with your client id number and verification of the information received. You can send accounts that are up to 4 years old from the last date of service. You can also send accounts that may have been written off previously. There are 3 pieces of information we need pertaining to each account: Individual Information Sheet, the ledger breakdown of how the balance was arrived, and the last date of service. **Client**
